

ETHICAL RULES COMPLIANCE STATEMENT

I recognize and accept the basic principles of Engineering and the code of ethics which are stated below.

Name	Surname	Signature/Date:
Name	Surname	Signature/Date:
Name	Surname	Signature/Date:

Engineers; they glorify and develop the integrity, honor and value of the engineering profession by using their own knowledge and skills to increase the welfare of humanity, by serving honestly and impartially to the public, their employers and customers, by striving to increase the ability and prestige of the engineering profession, by supporting the professional and technical unity of their disciplines.

- Engineers will prioritize the safety, health and comfort of the society while performing their professional duties.
- Engineers will only provide service in areas where they are authorized.
- Engineers will only issue objective and realistic reports.
- Engineers will act as reliable attorneys or assistants to the employer or client in professional matters and avoid conflicts of interest.
- Engineers will establish their professional reputation according to the requirements of their services and will not enter into unfair competition with other colleagues.
- Engineers will work to promote and develop integrity, honor and value of profession.
- Engineers will continue their professional development through their own careers and will provide opportunities for the professional development of engineers under their control.

I declare that the parst quoted from any source in this report are less than 15%, and the number of one-to-one quotations in paragraphs is zero.

IEEE CODE OF ETHICS: It will be added to the report as it is.

We, the members of the IEEE, in recognition of the importance of our technologies in affecting the quality of life throughout the world, and in accepting a personal obligation to our profession, its members and the communities we serve, do hereby commit ourselves to the highest ethical and professional conduct and agree:

1. to accept responsibility in making engineering decisions consistent with the safety, health and welfare of the public, and to disclose promptly factors that might endanger the public or the environment;
2. to avoid real or perceived conflicts of interest whenever possible, and to disclose them to affected parties when they do exist;
3. to be honest and realistic in stating claims or estimates based on available data;
4. to reject bribery in all its forms;
5. to improve the understanding of technology, its appropriate application, and potential consequences;
6. to maintain and improve our technical competence and to undertake technological tasks for others only if qualified by training or experience, or after full disclosure of pertinent limitations;
7. to seek, accept, and offer honest criticism of technical work, to acknowledge and correct errors, and to credit properly the contributions of others;
8. to treat fairly all persons regardless of such factors as race, religion, gender, disability, age, or national origin;
9. to avoid injuring others, their property, reputation, or employment by false or malicious action;
10. to assist colleagues and co-workers in their professional development and to support them in following this code of ethics.

Approved by the IEEE Board of Directors
August 1990.
